

APPLICATION FOR EXAMINATION: Principles & Practice of Engineering

- This application is for those seeking initial licensure or an additional license discipline through the Principles and Practice of Engineering Exam.
- If requesting a new discipline, a complete new application is required, including new reference forms.
- Do not substitute a resume or other synopsis for any part of this application form.
- It is the responsibility of the applicant to ensure all verifications, references, and supporting documents are completed and received by the Board.
- Make checks payable to "Nebraska Board of Engineers and Architects" or "NBEA." Application fees are non-refundable once deposited by the Board. In the event that your check is returned unpaid for insufficient or uncollected funds, we may re-present your check electronically. In the ordinary course of business, your check will not be provided to you with your statement.

SECTION I: GENERAL INFORMATION

1. _____
Full Legal Name (including full middle name)
2. _____ 3. _____
Social Security Number (last 4 digits) Engineering Examination Discipline Requested
4. Do you have an NCEES Account? NO YES, NCEES Account No.: _____
5. **Mailing Address:**
- _____
Firm Name (if applicable)
- _____
Street Address
- _____
City, State, Zip Code
- _____
Email Address
- _____
Telephone ext
- _____
Alternate Telephone ext
- _____
Fax

SECTION II: FUNDAMENTALS OF ENGINEERING EXAM

- If you passed the FE exam in another state, you must have your exam verification forwarded to the Nebraska Board directly through your "My NCEES" account or using the verification form at the end of this application. Some jurisdictions may require a fee for this service and processing times may vary. You will need to contact the verifying jurisdiction to confirm whether a fee is required and instructions for submitting the request.
- If you have applied for engineer intern enrollment within the last ten years, you do not need to resubmit this verification.

I passed the FE Exam in:

State

Date passed

SECTION III: EDUCATION

- Enter the name and location of the college or university attended, date of graduation, and type of degree received. Do not anticipate dates of graduation.
- A copy of your official transcripts or other documents issued directly by the granting institution of higher education, or its authorized agent, verifying your graduation from an EAC/ABET-accredited engineering program is required to be sent directly to the Board. Electronic transcripts may be sent to the above email.
- If you have been enrolled as an Engineer Intern within the last ten years, you do not need to have your transcripts re-sent unless you intend to use a graduate degree towards the experience requirement for licensure.
- Applicants with non-EAC/ABET-accredited degrees must have their education evaluated by NCEES Credentials Evaluations to determine if it meets the NCEES Education Standard. Please visit <http://ncees.org/credentials-evaluations> for more information. Their evaluation must be transmitted directly to the Board from NCEES.

| Name of Institution, Location (City, State, Country) | Date Graduated | | Degree Received (BS, MS, etc.) | Major |
|--|----------------|-----|--------------------------------|-------|
| | Mo. | Yr. | | |
| | | | | |
| | | | | |
| | | | | |

SECTION IV: REFERENCES

- List the names and contact information of five people unrelated to you, who can attest to your good reputation and good ethical character. Three must be professional engineers having personal knowledge of your engineering experience. Current Board members are not acceptable references.
- All references must complete an "Engineer Reference" form and submit it directly to the Board.
- If you are applying for engineer intern enrollment and approval to sit for the PE exam at the same time, only the PE exam references need to be submitted.
- If you have applied for engineer intern enrollment within the last year, only references from three professional engineers are required.

1. _____
Name

_____ Phone _____ Email

_____ License number and State of Licensure, if PE

2. _____
Name

_____ Phone _____ Email

_____ License number and State of Licensure, if PE

3. _____
Name

_____ Phone _____ Email

_____ License number and State of Licensure, if PE

4. _____
Name

_____ Phone _____ Email

_____ License number and State of Licensure, if PE

5. _____
Name

_____ Phone _____ Email

_____ License number and State of Licensure, if PE

SECTION V: EXPERIENCE

Record your complete work history, beginning after college graduation and concluding with your present employment. You must account for the entire time period from graduation until now, including periods of unemployment, volunteer work, non-engineering work, and military service. If you have an NCEES Record, provide all work history not included in your Record, and your current at a minimum.

Description of Work

The Board will be evaluating the development and extent of your engineering experience, including assessment of your skill, knowledge, and level of responsibility. Descriptions should include detailed descriptions of the type of engineering work you performed. The most common type of acceptable experience is design. The common denominator in design is the selection and use of recognized engineering principles and methods to determine a solution to a problem. The final result of design work will usually be details, plans, specifications, product or component identification, or operating & maintenance procedures for use in creating a project.

The second most common type of acceptable experience is analysis. Common features of analysis activities include the use of mathematical and engineering modeling or review of established design standards to assess a problem or proposal, and the act of making a learned recommendation based on analytical findings. Engineering analysis will result in a conclusive report and recommendation and may address existing conditions, performance, feasibility, constructibility, safety, the environment, economic factors, and reliability. Many other types of activities will also be acceptable if your participation in those activities can be described in terms of design or analysis. By asking yourself if you can describe your activity in terms such as "I calculated ..., I designed ..., I analyzed ..., I recommended ...," you can almost assure yourself that you are describing design and analysis. Other types of acceptable experience may include, but are not limited to:

Practical Application:

- Implementation (Of engineering principles in design, construction, or research; performance of engineering cost studies; process flow and time studies; quality control implementation and assurance; safety; environmental issues)
- Testing (Developing procedures to test production and quality control, verifying functional specifications)
- Calculations (interpreting calculations to ensure they adequately protect health, safety, and welfare)
- Applying codes, standards, and laws governing applicable activities

Engineering Management:

- Planning: Developing concepts, evaluating alternative methods
- Scheduling: Preparing task breakdowns and schedules
- Budgeting and Contracting: Cost estimating and control, contract development
- Supervising: Organizing human resources, motivating teams, directing and coordinating resources
- Project Control
- Risk Assessment

Explaining how your engineering skills and responsibilities have progressed during your years of experience is helpful. **Applications that do not demonstrate original, independent thinking and/or engineering calculations are considered deficient in meeting the experience requirement of progressive engineering.**

Progressive Experience

Each employment engagement must be divided into a percentage of time spent. Using the following progressive engineering experience definitions, enter the percentage of time spent on that type of work in the corresponding column. The percentage for each employment engagement must total 100%.

- Technician Experience: conducting routine tests and calculations, presenting data in a reasonable format, carrying out operational tasks following well-defined procedures, methods, and standards.
- Design Experience: providing a service or creative work that requires engineering education, training, and experience in the application of special knowledge of the mathematical, physical, and engineering sciences.
- Project Engineering: utilizing organization, management, and planning to coordinate the design of entire projects, from conception to final design. The project engineer must have the design knowledge as well as management capabilities and communication skills to exercise independent judgment and coordinate with the staff to complete the project.
- Management: coordination, planning, scheduling, budgeting, and supervision of engineering activities. This includes coordination of staff, project control, and risk assessment in the utilization of sound engineering judgment.

Supervisor

List your supervisor's name, licensure status (e.g. P.E.), company title, and name of company for each employment engagement, along with their contact information. If your supervisor has changed companies since a specific employment engagement, do not use their current job title on the summary form. List the supervisor's company title at the time of supervision. Alternatively, list the information of a person who was familiar with the work you performed at the engagement.

| Employment Dates | Description of Work | Supervisor | | | | | | | | | | | | | | | | | | | | |
|---|--|--|------------------------|-----|--|--|--|---|--|--|--|--|-----|-----|-----|-----|-----|-----|-----|----|--|--|
| Month/Day/Yr (Do not overlap dates) | List your title, name and city/state of employer, and a detailed description of your engineering work performed. Describe the engineering duties and tasks you performed, level of responsibility, engineering decisions made, and a list & brief description of the projects you worked on. | Name, licensure status, company title, name of company, telephone number, address, and e-mail of supervisor. | | | | | | | | | | | | | | | | | | | | |
| 12/3/2015 to 7/31/2017 | <p>Structural Designer, ABC Engineering Co., Dallas, TX</p> <p>I was a member of the engineering production staff designing Wal Mart stores. I performed analysis and design on 29 WalMart stores in 7 different states.</p> <p>Each project included the design of foundation, walls, and roof and the interface of each. Occasionally special structures were included. Local codes were considered in each project. I designed the roof framing, which consisted of a joist/joist girder system supported by tube columns, the masonry walls, the foundation systems (spread footing or pier and grade beam). I also designed a two-way flat plate slab supported by timber piles for the Philadelphia, PA WalMart.</p> <p>On one of the more challenging projects, I analyzed and designed 12" load-bearing masonry walls for 100 mph wind forces under the South Florida Building Code. The lateral system involved 2 C-shaped cantilevered diaphragms separated by an expansion joint. I calculated the deck shears for the diaphragms taking into account a rigid diaphragm analysis. Due to high deck shears, I determined that zones of heavier gauge roof deck must be used along the perimeter of the shear walls.</p> <p>I also calculated the tension/compression chord forces of the cantilevered diaphragm and sized the chord angles. I designed the spread footing foundation system for gravity loads as well as the large uplift loads. I concluded that for an economical design, the footing must be placed 2.5 feet below the finished floor to take advantage of the dead load of the soil above the footing. This particular WalMart also had a wood framed canopy along the front of the building. I designed all the connections necessary (i.e., hurricane ties to hold the canopy down at the ledger and adhesive anchors to anchor the ledger to the masonry wall) to resist the wind uplift forces.</p> | <p>John Smith, PE (Texas) Structural Principal-in-Charge ABC Engineering Co. 123 Main Street Dallas, TX 75217 jsmith@abceng.com 214-555-1234</p> <table border="1" data-bbox="1202 1087 1529 1400"> <thead> <tr> <th colspan="5" data-bbox="1202 1087 1529 1129">Progressive Experience</th> </tr> <tr> <td colspan="5" data-bbox="1202 1138 1529 1272"> 1. SECTION VI: AFFIDAVIT

For the purpose of complying with Neb. Rev. Stat. §§ 4-108 through 4-114, I attest as follows:

- I am a citizen of the United States, **OR**
- I am a qualified alien under the federal Immigration and Nationality Act, my immigration status and alien number are _____, and I have enclosed a copy of my USCIS documentation.

Note: Provide an explanation, and official documentation if available, for each "YES" answer below. Licensure approval or renewal will remain pending until after review.

| | | |
|---|------------------------------|-----------------------------|
| 1. Have you ever been denied a license to practice engineering or architecture in this or any other jurisdiction? | <input type="checkbox"/> YES | <input type="checkbox"/> NO |
| 2. Has a complaint ever been filed or has formal disciplinary action ever been taken against you by a regulatory body for professional engineering or architecture in this or any other jurisdiction? | <input type="checkbox"/> YES | <input type="checkbox"/> NO |
| 3. Have you ever voluntarily surrendered your professional engineer or architect license or entered into a negotiated settlement in order to avoid disciplinary action by a professional regulatory body in this or any other jurisdiction? | <input type="checkbox"/> YES | <input type="checkbox"/> NO |
| 4. During the past 10 years, have you been convicted of a crime, other than a minor traffic violation, in this or any other jurisdiction? | <input type="checkbox"/> YES | <input type="checkbox"/> NO |
| 5. During the past 10 years, have you entered into a pretrial diversion program or similar pretrial procedure to avoid prosecution for a crime, other than a minor traffic violation, in this or any other jurisdiction? | <input type="checkbox"/> YES | <input type="checkbox"/> NO |
| 6. Are there now any criminal charges, other than a minor traffic violation, pending against you in this or in any other jurisdiction? | <input type="checkbox"/> YES | <input type="checkbox"/> NO |
| 7. During the past 10 years, has a judgment been entered against you in a civil proceeding in this or any other jurisdiction involving fraud, misrepresentation, or professional malpractice? | <input type="checkbox"/> YES | <input type="checkbox"/> NO |
| 8. Is there any action or proceeding presently pending against you in any court or other tribunal in this or any other jurisdiction alleging that you committed fraud, misrepresentation, or professional malpractice? | <input type="checkbox"/> YES | <input type="checkbox"/> NO |

I hereby attest that my response and the information provided on this form and any related application for public benefits are true, complete, and accurate, and I understand that this information may be used to verify my lawful presence in the United States.

I will not represent myself as a professional engineer or offer to perform engineering services in the State of Nebraska until this application is approved and a professional engineer's license has been granted by the Board.

Unless my firm holds a current Certificate of Authorization, it is not authorized to offer or contract to perform engineering services in Nebraska until the application process is completed and a professional engineer's license has been granted by the Board.

I have read the Nebraska Engineers and Architects Regulation Act.

VERIFICATION OF LICENSURE OR EXAMINATION OF A PROFESSIONAL ENGINEER

- Section I is to be completed by the applicant if the FE Exam was taken outside the state of Nebraska.
- Forward this form to the appropriate state board who will complete Section II and return directly to the Nebraska Board.
- Some jurisdictions charge a verification fee and processing times may vary. You will need to contact the verifying jurisdiction to confirm whether a fee is required and instructions for submitting a request.
