B. SUBCOMMITTEE AND OTHER REPORTS

NBEA Subcommittee Reports

A copy of the FY2025-26 Board committees and charges was provided.

[Legislative Committee](#)

A copy of legislative bills currently being tracked that may be of interest to the Board was provided.

LB899, which revises the Engineers and Architects Regulation Act (E&A Act), was amended into LB1212 (licensure of internationally trained physicians) via AM2998. LB1212 passed on final reading and was signed by Governor Pillen on April 14, 2026. The provisions will go into effect on July 17, 2026.

[Other Reports](#)

2026 Interim Study List

A list of interim studies that may be of interest to the Board was provided. The members indicated they are also interested in LR432, a study on residential building codes and rehabilitation costs, and LR441, a study on building codes and LB1227 implications.

LR 447

LR 447 will examine the potential benefits and implications of offering baccalaureate degrees in Nebraska that require fewer than the traditional 120 credit hours or four years of study. The Education Committee will conduct the study analyzing the feasibility and potential benefits of baccalaureate degree programs requiring fewer than 120 credit hours. The study will consider geographic, industry, student population, and institutional factors, with the goal of expanding access to bachelor's degrees, addressing workforce shortages, and aligning postsecondary

education with evolving state needs. The committee is to report its findings and recommendations upon completion of the study.

Dvorak informed the members that the College of Engineering is already required to do this when a program's hours are revised to more than 120 hours. He stated it is important to stress the relationship between hours and licensure. Kelly indicated that some architectural programs in the US offer 90-hour bachelor's degrees. Both stated there could be a reduction in the number of general education hours required and that students at UNL may already bring 9-12 hours of general education from high school. It was pointed out that not all high schools in Nebraska offer advanced/dual credit classes. Westerhold believed the study is centered around trades and professions in which there is a shortage in Nebraska.

Russell Westerhold, Edwards Westerhold Moore (EWM)

Russell Westerhold, Edwards Westerhold Moore, reported on the 2026 legislative session. Westerhold reported April 17, 2026, is the last day of the session. The legislature will be addressing any veto overrides and other end-of-session business. He will inform ED Wilbeck when hearings are scheduled for the three interim studies for which the members have indicated interest.

There are 25 legislative seats open in the November 2026 general election, all even-numbered districts and District 41, which will be filled for the remainder of the term due to a resignation.
